Plot (sequence of events) QUE

Beginning What happens at the beginning of the story?

The king thought what if I had a power to find out what's the right time to do anything so if he conquer all the places without any hassle. Then he announced the prize to that man who satisfy the king by providing him the answers but all failed to do so so he went to see that wise man "Hermit".

## Middle What happens in the middle of the story?

King went to see Hermit when all failed to provide the answers. King along with his bodyguards and a horse which he was riding went to the jungle. After dismounting from the horse he wen alone leaving his bodyguard behind. King there saw an old man digging beds, apparently old man looks weak and exhaling too much when lifting his tool. King requested him to answers the questions but he kept digging the ground. King took that tool from and started digging. As the time going up he again requested the old man to answer his querstions but again no question was replied by wise man. Suddenly king saw a wounded man rushing in his directions king tried his level best to bandage him and saved his life. In the morning that wounded man asked King to forgive him as he was coming with the intensions to kill him because he gave capital punishment to his brother also siezed his property.

End What happens at the end of the story?

King was answered by Hermit that how by saving life of that wounded man saved his life too.
